

MdQI 2021 Partnering Award \$5 million to \$10 million

We are proud to announce that our project, MD 550 over Little Bennett Creek has won the MdQI 2021 Partnering Award in the \$5 million to \$10 million category.

Receiving the Maryland Quality Initiative (MdQI) Partnering Award for our project, MD 550 over Little Bennett Creek, is a great honor that we are thrilled to announce. Triangle Contracting, along with three other firms, Concrete General, Wilson T. Ballard, and Prime AE Group, worked together to complete the bridge replacement and stream restoration at Little Bennett Creek.

We would especially like to thank project manager Steve Loughry and the Triangle team for a job well done in Montgomery County.
